

~~Mr. Bannerman:~~

SUBJECT: Allegation against Finance Supervisor

As you requested, I called Les Bush to tell him that since the IG had not identified the employee or the supervisor involved in an oral report made by the IG, you would let him off the hook at least for the time being. Les said that he had identified the employee and the supervisor. He indicated that the employee is a Finance clerk who has many many problems, most of them apparently at home. He said that he is at a loss to know how to help the young man but will follow the case closely. He also said that given the young man's statement he no doubt could have inferred from the supervisor that he would be finished in his present job if he looked elsewhere for an assignment.

MEMORANDUM FOR: Director of Finance

Les:

I believe Gordon Stewart has been in touch with you concerning a remark to him credited to a supervisor in your Office reacting to a request of an employee to have his file shopped. The remark was to the effect that the supervisor readily agreed that the file should be shopped and warned the employee that, if his effort were not successful, he was fired from the Office of Finance. Mr. Stewart mentioned the remark without identifying the organizational unit at a Deputies Meeting, chaired by Colonel White on 13 June 1968, at which the primary discussion topic was career management. Mr. Stewart indicated at the meeting only that it was in the Support Directorate and that he would identify the component to me privately if I desired -- which I did and he did and therefor my query to you. After you have a chance to run this one down, would you please advise Mr. Bannerman or me.

John W. Coffey
